Lets Always Look for the Good in Each Other.

Sow Seeds of Harmony to blossom as Friendly Goodwill *for transforming our atmosphere to a City of Goodwill* ….please join with us for spreading lots & lots of other Seeds of Love & Peace & Understanding & Goodwill. ….come visit us at; www.goodwillpeople.net

GREETINGS…..I am a Seed of Harmony. My job is to encourage everyone to share more of their loving goodness, their higher nature, for building more vibrations of goodwill into our atmosphere. Love will show out as goodwill. When we see love, and acceptance and understanding, we also see increasing levels of mutual respect ….and we see more caring compassion towards all living creatures and mother earth - and this is the key for leaving a safe, life sustaining environment for our children's children to inherit. *A teacher of how to have a good life has said that people wait for that special moment to express love and forget that love springs from thoughtfulness practised every day, and that people wait, but waiting is future and now is always the time.* Yes, now is the time for the harmony of love. Love is our key. Can you imagine a world where the six o'clock news is fully 100% goodwill stories (that's no inhumanity, no road rage, no crime or violence, no exploitations, no injustices to the less powerful, no harm to the animals or the eco systems, etc, etc, etc) ...a joke you say - well, the book, *The Secret,* basically says that whatever we can imagine we can bring into our lives. First imagine, then believe, then start doing. If the dream excites you, then you will love our web site where you can print out lots of different ***Seeds of Harmony*** plus lots of other seeds that build more positive vibrations in the air. If you like what we offer, then we hope you spread lots of Seeds for transforming the atmosphere of our City with peaceful and loving vibrations. This will make the difference. ***I hope you will join in.*** Because as more hearts participate then the sooner changes will show. ***Yes, we can do it.*** Visit us at; **www.goodwillpeople.net**
