

## **Making a Goodwill City with heartfelt caring for each other.**

If you believe in Angels, then this Seed will appeal to you. How many times have you been watching the news or reading stories in the local paper that touched something inside to the point where you felt you would like to help, but did not see how. Or, how many times have you read about or seen totally negative or inhumane stories on the TV, and you had feelings of wanting to do something about it, yet did not see how you could. Well, this Seed is for these very occasions. Whenever you feel like you want to support another who is having a hard time, or someone in distress, or your compassion wants to see more Peaceful Harmony at some location, you could voice this request. You do not need to use these exact words, you may want to use your own words. Do not be put off if you do not know names, you will know locations and specific trouble spots, that is sufficient. What matters is your intention. With your heart in the right place and so long as you are not wanting to actually interfere or control the destiny of others, the Angels will know and answer your heartfelt request. Here is a suggestion to voice daily ;

**“ I ask of any and all Angel Beings to bring comfort and aid to (name/s). Thank you. ”**

*Or if it be appropriate....*

**“ I ask any and all Angel Beings for the most benevolent outcome for (name/s).  
Thank You. ”**

*And if it be appropriate....*

**“ I ask any and all Angel Beings to bring forth the most benevolent outcome for (name/s) .  
And I ask that comfort and aid be given to the family and friends of (name/s). Thank you. ”**

I am a Seed of Harmony.....my job is to encourage more of something everyone can do towards making the atmosphere feel as a City of Goodwill. My inspiration has come from the book ' *The Gentle Way - A Guide for Those who Believe in Angels* ' by Tom T Moore. This is an excellent book for bringing wonderful and beneficial support into any persons life experiences .....I highly recommend getting a copy for yourself and for those you love. I do hope that my presence has been a catalyst for you having a good day. You will find lots of Seeds for enhancing the good in your life at [www.goodwillpeople.net](http://www.goodwillpeople.net)
