

IF A MAGIC FAIRY GAVE YOU 3 WISHES, WHAT WOULD YOU CHOOSE, AND WHY?

1. _____

2. _____

3. _____

It's your lucky day....the Good Fairy has just given you 3 wishes. Now you need to decide what they will be. Think about your own life and see what you would use your wishes for. Next think about your family, what wishes would be for supporting your own family. Next think about your community, what wishes would be supporting your community...and think of our Global Family and what wishes would be supportive for our Global Family. From all the things you could use your wishes for and without considering others opinions, you need to select the 3 that you give the highest priority to at this very time, and write them in the spaces above. Think about why you choose the 3 that you have, for this will be another signpost for discovering your special values.
